Please read through these instructions completely before beginning.

You will need Tear Away, Cut Away mesh, Stitch N Shape, Timtex or other stiffener product.

This is Morgan she is my youngest granddaughter, 3 1/2 years old and she was digitized from a photo I took of her. The clothes were made from photos of clothes I made for the Baby Bellies store.

Hoop stabilizer and lay the stiffener on top and begin stitching the doll.

Trim closely to the stitching.

I stitched the clothes on cut away mesh and one layer of tear away floated under the hoop. Trim closely.

You can use some Aleen's Tack It Over and Over glue on the back to help stick the clothes to the doll. I did not have any so I ironed some Floriani's Appli- Kay Wonder to the backs. I saved the paper to keep in the clothes when not being used to keep the sticky clean.
