

Instructions | Floral Shadows

Shadow Work the Floriani Way

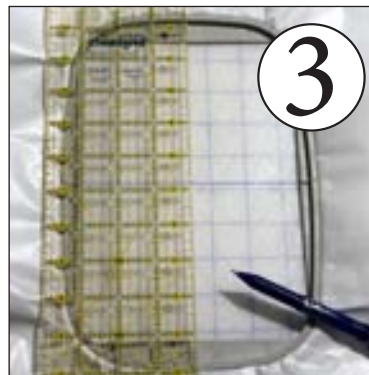

1

1.) Place one piece of Floriani Wet-N-Gone Tacky stabilizer in the embroidery frame with the paper side facing up.

2

2.) Score the release paper and peel it back to the edge of the hoop revealing the sticky surface of the stabilizer.

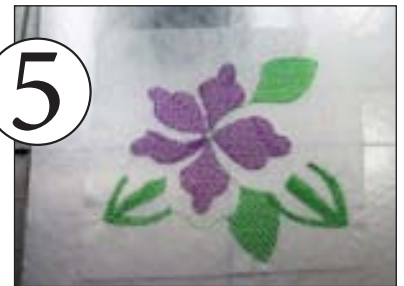

3

3.) Find and mark the center of your hoop using a ruler and fabric safe marking pen such as water soluble or heat Frixion® pen.

4

4.) Lay a piece of regular Wet-N-Gone stabilizer down onto the tacky stabilizer. Make sure the piece of Wet-N-Gone stabilizer is slightly larger than the overall design you are stitching. (Make sure the shadow work portions of the design will stitch onto the Wet-N-Gone stabilizer completely)

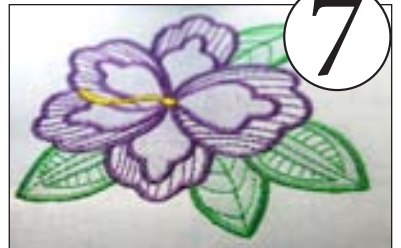

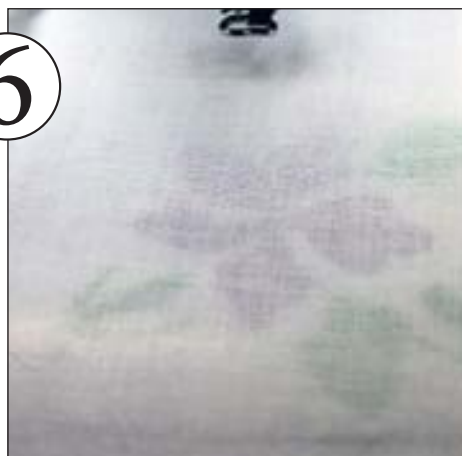

5

5.) Stitch the Shadow Work portion(s) of your design directly onto the Wet-N-Gone stabilizer.

6.) After the Shadow Work objects stitch onto the Wet-N-Gone stabilizer, position your fabric over the entire design. Make sure the fabric is held in place by the Wet-N-Gone Tacky stabilizer around the perimeter before continuing. This ensures the fabric will not shift when embroidering the top stitches.

6

7

7.) Stitch out remaining colors and your design should look similar to this inside the hoop when stitching is complete.
