

Jenny Haskins Project

Decorative Towel by Ange Ross

Skill Level: Beginner

Supplies Needed:

- ◆ Hand Towel
- ◆ Jenny Haskins Designer Necktie CD
- ◆ Jenny Haskins threads: Black, 674, 179, 1204, 191,230, bobbin thread
- ◆ 5"X7" embroidery hoop
- ◆ Lace to sew across bottom of hand towel
- ◆ Jenny Haskins Hoop Magic Stabilizer
- ◆ Jenny Haskins Heat Magic Stabilizer
- ◆ Embroidery Needle 80/12
- ◆ Jenny Haskins Heat Fix Crystals to decorate lace & flowers
- ◆ Heat fix tool
- ◆ Blue wash away marking pen (I like Clover with the eraser on one

1. Transfer Design dnt22a from Designer Neckties to your sewing machine.

2. Place hoop magic in the hoop with paper side up.

3. Use a straight pin to draw an X on the paper being careful not to cut through The stabilizer, only the paper. Peel away paper leaving the sticky side of the stabilizer exposed.

4. Mark the center of your hoop with a set of crosshairs. Mark a crosshair on one end of your towel. Using these two sets of crosshairs line up your towel in the hoop so your embroidery design will be centered on the towel. No need to baste in the hoop when using a sticky stabilizer.

Tip: Matching your top thread & bobbin thread will make your design show better on the back side of your towel.

5. Remove towel from hoop, remove excess stabilizer.

Note: Hoop magic is 50% water soluble so you can wet it with a damp cloth to help it tearaway easily. Heat magic is removed by placing a hot iron over the remaining stabilizer. If you don't mind washing your towel before you give it away or use it. Try using Dissolve Magic Sticky & Water Soluble Magic as the topper.

6. Sew lace along bottom of towel. Fix crystals on the lace & center of the flowers.
