

Jenny Haskins Project

Lavender Sachets

Supplies Needed:

- ◆ Lgl06a from Jenny's Lace Glorious Lace design CD
- ◆ Two 8 inch squares of a sheer fabric or tulle to embroider on
- ◆ Four layers of Dissolve Magic water soluble stabilizer, use two layers for each design
- ◆ Machine needle: Microtex 80
- ◆ Machine feet: embroidery foot and open toe foot
- ◆ Threads: Jenny Haskins Rayon Thread
- ◆ Construction thread
- ◆ Fine pre-wound bobbins
- ◆ Heat activated crystals and heating wand
- ◆ Jenny's Magic Tassel Maker
- ◆ General sewing requirement

Original idea from
Regula Muller and
Bernadette Robinson

EMBROIDERY

- ◆ All embroidery uses Dissolve Magic water soluble stabilizer in the hoop, the embroidery foot, a pre-wound bobbin, Jenny Haskins Rayon Thread, Size 80 Microtex needle.
- ◆ Use the lgl06a from Jenny's Lace Glorious Lace design CD
- ◆ Two 8 inch squares of a sheer fabric or tulle to embroider on, even though this is a stand alone design you will need the backing fabric so the lavender doesn't escape.
- ◆ With each design, two layers of *Dissolve Magic water soluble stabilizer*

CONSTRUCTION

The lace design used in this project is lgl06a from Jenny's Lace Glorious Lace design CD (remember to mirror the design for the back of the sachet). You will need two 8inch squares of a sheer fabric or tulle to embroider on – even though this is a stand alone design you will need the backing fabric so the lavender doesn't escape. With each design, two layers of Dissolve Magic water soluble stabilizer are used in the hoop along with the sheer fabric.

Embroider the two lace designs (remembering that it is mirrored for the back). Lie your work flat to dry, and then press it (on the wrong side) over a towel. Use small sharp scissors to carefully cut around the edge of each piece of lace, then, with wrong side's together and using thread in the needle and bobbin that matches the lace, sew a small straight stitch around the outside edge of the lace to make a pocket. Leave a small opening at the top to put the lavender in, and then machine-stitch the opening closed, catching the cut ends of a looped twisted cord or ribbon to act as a hanger.

Add the finishing touch to these dainty wonders with heat-activated crystals applied with a heating wand, and by adding a tassel made with Jenny's Tassel and Fringe maker, then sit back and admire your work.
